The CFITES PO Writing Checklist

Use this checklist every time you write or review a Performance Objective in a CFITES context.

ACTION: Performance Statement

1. ☐ Does the PO contain an observable, measurable action verb?
2. ☐ Does the verb avoid mental states (“understand,” “know,” “appreciate”)?
3. ☐ Is the verb matched to the appropriate CFITES cognitive level (Recall / Apply / Problem-Solve)?
4. ☐ Does the PO describe what the learner will do (not what the instructor will do)?

CONDITIONS: Conditions Statement

5. ☐ Are all resources the learner may use clearly named?
6. ☐ Are any restrictions or denied aids explicitly stated?
7. ☐ Is the environment or setting specified?
8. ☐ Could someone else set up the exact same evaluation conditions from this statement alone?

STANDARD: Standard Statement

9. ☐ Is the standard expressed in objective, measurable terms (accuracy, time, compliance with a reference document, score threshold)?
10. ☐ Does it avoid subjective language (“satisfactory,” “appropriate,” “good”)?
11. ☐ Could two independent evaluators reach the same pass/fail decision using only this standard?
